- hdc –half double crochet
- sc2tog – single crochet 2 together
- fphdc - front post half double crochet
- bphdc - Back post half double crochet
- SS - slip stitch
- YO - yarn over
- FO - fasten off

Pattern Notes:

- Written in US Terms

- 
- Ch1 stitches at the beginning of a round **do not** count as a st unless otherwise stated.
 - Ch1 sts following a sc2tog stitch **do** count as a st.
 - The stitch count remains the same for each round on the main body of the beanie.
 - The stitch multiple to adjust this pattern if required is 2.
 - Where pattern is different per size this will be shown as newborn/6mth/12mths/1-3 yrs/4-10 yrs/teen/ adult med/adult large.
 - The crown widths are provided according to my gauge from round 5 onwards. If you cannot / do not meet gauge when working the crown of your hat, take a note of the size it should be and stop when you reach the correct size - the pattern will still work for you! By doing this, it gives you the freedom to use 5 weight yarn and a 6mm hook if you prefer.
 - Stitch counts are given at the end of each row.
 - Where the stitch count is the same for each size only one count will be given.
 - Please read the pattern and ensure you are comfortable with it before starting your project.
 - When measuring the length of your hat when working the main body, you do so from the top of the crown.

Special stitches:

Sc2tog: This stitch is worked over 2 sts. Insert hook into first st to be worked, YO and pull through (2 loops on hook), insert hook into next st to be worked, YO and pull through (3 loops on hook). YO and pull through all 3 loops on hook. Sc2tog completed.

You can find my blog post about the SC2tog at <https://sunflowercottagecrochet.com/how-to-crochet-sc2tog-single-crochet-2-together-step-by-step/>

SC2Tog

We will be working into the back loop only from row 2 onwards

*insert hook into the blo of the next st

yarn over

and pull through*

insert hook into blo of next st and rep from * to *

It will now look like this

YO and pull through all 3 loops on hook.

SC2tag completed

Back Loop Only:

You will be working the SC2Tog into the back loop only. Here is a reminder of how to identify the back loop. The front and the back loops will sit at the top of your work.

Back post:

To work a bpdcc you work a dc, but instead of inserting your hook into the next stitch through the front and back loops, you insert your hook around the post of the stitch below from the back to the front and then out of the back again.

You can see this in my bpdcc video

Front post:

To work a fpdc you work a dc, but instead of inserting your hook into the next stitch you insert your hook around the post of the stitch below from the front to the back and then out of the front again.
